

Acknowledgements

Firstly, I would like to express my sincere gratitude to my supervisor and programme director Dr. Jun Wang for his advice and comments on this work, and for being our mentor at University College London.

I would also like to thank to the National Secretariat of Higher Education, Science, Technology and Innovation (SENESCYT), and especially, to Dr. Rafael Correa Delgado, President of the Republic of Ecuador, for believing in the skills of all Ecuadorian citizens that are now studying in the best Universities around the world. Your trust and our sacrifice will be transformed into innovation that will turn our Country into a Republic of opportunities.

Finally, I would like to thank to my mom, friends and family for their support and encouragement throughout my studies.
